

Rockingham Raceway

1/32nd Scale Falcon FORMULA 1 CHAMPIONSHIP

The following cars will be eligible for the Championship

Any car built to current BSCRA 1/32nd Formula 1 rules and fitted with a Falcon Motor.

For full details see the BSCRA website - www.bscra.org.uk

Race control may also permit cars built to the following rules to race but they will not be eligible for the Club Championship

BSCRA Formula 1 Cars – see the BSCRA website

Any car built to the ABSlotsport Falcon Pro Formula One rules.

For full details see the ABSlotsport website - www.abslotsport.biz

Summary of the basic BSCRA 1/32nd Formula 1 rules

1. Chassis

- a. Any chassis that complies with the BSCRA 1/32nd Formula 1 Rules.

2. Motor

- a. Only the following motors are permitted:
JK Falcon, TSR (D3) Falcon.

3. Body

- a. Any 1/32nd Formula 1 body from the BSCRA Approved Body List – provided that it does not exceed the maximum body height when fitted over a Falcon motor.
- b. Bodies must be fully painted, detailed and numbered in accordance with BSCRA guidelines.
- c. Bodies must cover the entire chassis, including the guide, the motor and gears when viewed from directly above.
- d. An interior, including a driver, must be fitted and no part of the chassis or running gear may be visible through the cockpit.

4. Dimensions

- a. Maximum Height of the Rear Wing must not exceed 30mm.
Note: Bodies may not be modified in any way to achieve this.
- b. Overall Width of the entire car must not exceed 68mm.
- c. Rear Wheels and Tyres.
Maximum width - 16mm.
Minimum diameter – none.
