## Summary of the basic BSCRA 1/32<sup>nd</sup> Production rules

### 1. Chassis

- a. Any chassis from the BSCRA approved list which includes the following: Eurotoy II, Parma International 32, GM Demon, CMG and JK X32.  
Note: only 2 piece chassis are permitted.

### 2. Motor

- a. Only the following motors are permitted:  
JK Falcon or TSR (D3) Falcon.

### 3. Body

- a. Any 1/32<sup>nd</sup> Sports or GT body from the BSCRA Approved Body List – provided that it does not exceed the maximum body height when fitted to a Production car.
- b. Bodies must be fully painted, detailed and numbered in accordance with BSCRA guidelines.
- c. Bodies must cover the entire chassis, including the guide, the motor and the wheels, tyres and gears when viewed from directly above.
- d. An interior, including a driver, must be fitted and no part of the chassis or running gear may be visible through the windscreen or windows.

### 4. Dimensions

- a. Maximum Height of the body must not exceed 32.5mm.  
Note; Bodies may not be modified in any way to achieve this.
- b. Overall Width of the entire car must not exceed 64mm.
- c. Rear Wheels and Tyres:  
Maximum width - 16mm.  
Minimum diameter – 15mm.
